## Quality and integrity

CCL is committed to quality, and committed to you. At CCL, we deliver a personal service for personalised medicine that is high quality, value for money and executed in a fair timeframe. We always want to exceed expectations and serve with integrity, holding ourselves to high ethical values. Since the company begun over 160,000 tests have been carried out and over 400 customers supported. Having previously held CPA and ISO 9001 Accreditation, in 2018 CCL became UKAS accredited to the ISO15189 standard for medical laboratories.

## A great place to work

Our team is experienced, dedicated, and loyal and we acknowledge that. We enable CPD, encourage innovation and practise a no blame culture. We work as a team and get rewarded as a team. We are also making the changes to be a greener business.

Our experience is coupled with a rapidly growing portfolio of services in Oncology and Virology diagnostics, and new tests in Fertility and Gastro.

We are a dedicated team, delivering excellent customer services, ensuring fast turnaround times that don't sacrifice quality.

CCL is continuously expanding services so do check [www.camclinlabs.co.uk](http://www.camclinlabs.co.uk) for the latest news, and/or connect on LinkedIn / Twitter.

# The future of CCL

---

## Revolution of healthcare

The age of personalised medicine is now well established.

Everyone needs to be seen and treated as an individual. As diagnostics and therapeutics develop to meet this rapidly changing need, CCL will be there to provide a first-class service alongside state-of-the-art tests and treatments.

We will continue to expand our current offering of services in Oncology and Virology, but also develop into new areas of healthcare.

We are living in revolutionary times with regards to personalised healthcare diagnostics and specifically targeted therapeutics. We plan for CCL to be at the forefront of that revolution.

Join us.
